Premium Services

Experiential Shows Design

Shows that cater to mass audiences and allow them to experience the drama, action, and play of lights, sound, and music, allowing their sense emotions to understand the story or information in these awestruck shows. Projection Mapping Shows bring historical buildings to life by telling stories on their walls, and through Laser Light and Musical Fountains shows, where the water comes alive and plays on music and stories that can be told on a water screen through projection, giving the experience of drama happening in air as a hologram.

Our Projects.

Laser Light and Musical Fountain Shows

We have Produced over 5+ shows across the Nation.

Projection Mapping Show

Adi Se Anant

ITDC Government of Daman and Diu

Executed the event design for this project in collaboration with Premierworld Technology Ltd. It was the first ever 3D Projection Mapping Project - undertaken for India Tourism Development Corporation (ITDC) under the aegis of Ministry of Tourism, Government of India - to produce experientially and culturally stimulating night-time entertainment at Diu Fort, Diu. It basically encapsulated the aesthetic spirit of Diu by deploying cinematic tools like optical illusions and special effects like motion graphics associated with 3D Projection Mapping technology. The ultimate aim was to promote Diu as a coveted heritage tourist destination by way of the visual (through an amalgamation of dance, waterworks and light projection) and oral (rendered in the powerful baritone of acclaimed actor Kabir Bedi) retelling of the rich history of Diu.

Projection Mapping Shows

Red Fort

Infocenter, Red Fort, New Delhi

Ideated and executed two shows in collaboration with Design Factory India, and in these shows are stories of Diwan-e-Khas and the City of Shahjahanabad in 1857, which depict the era of Shah Jahan, how he ruled, and how the city was in 1857, so one show is happening on a marble-based arch cut out and the other on an elevated map of Delhi city pasted on the wall. These are the two shows that are continuously running to cater to the massive footfall of Redfort on a daily basis.

Media Content for Event

NCRTC

Trade Fair, Pragati Maidan, New Delhi

Designed and Produced Media Content for National Capital Region Transport Corporation Kiosk, at Trade fair 2022, Film for Holographic Fan and Vr Content to Experience the Upcoming Station of NCRTC, Holographic fan Media Content were designed to showcase the Vision of NCRTC and its corridor of 25+ Stations from Delhi to Meerut.

Content for Museum

Museum of Socialism

JPNIC, Lucknow

As an extension of experiential story-telling, we embarked on a journey of making research interesting and entertaining. With us an enclosed space comes alive, an idea starts breathing, and imagination turns into reality. In this journey, our first milestone was the Museum of Socialism Jayaprakash Narayan Interpretation Center, Lucknow. Spread over 3 floors it gave wings to our vision. Scripting the entire museum with the voice-over by none other than Shri Amitabh Bachchan and creating music for every information plaque and artifact was a unique experience for us.

Since then, each and every museum has been a multi-dimensional project for us and we take pride in creating content that stands apart.
